

FOR IMMEDIATE RELEASE: **January 12, 2024**

Wisconsin Education Associations to Posthumously Honor Senator Herb Kohl in 2024

Wisconsin associations representing public school teachers, principals, superintendents and school board members each to recognize Senator Kohl with top honors in 2024

MADISON, WI — The leaders of the state's largest public school teachers, principals, superintendents and school board member associations are joining together to recognize U.S. Senator Herb Kohl and honor his commitment to public education in Wisconsin.

The associations include the Association of Wisconsin School Administrators (AWSA), Wisconsin Association of School Boards (WASB), Wisconsin Association of School District Administrators (WASDA), and the Wisconsin Education Association Council (WEAC).

AWSA comprises associate principals and principals. WASB represents Wisconsin school board members and CESAs, WASDA represents the state's superintendents, and WEAC is Wisconsin's largest union of educators.

While the organizations have each honored Senator Kohl in various ways in the past, this posthumous recognition acknowledges a lifetime of commitment to Wisconsin education.

Senator Kohl's commitment to Wisconsin as a U.S. senator, his philanthropic work through the Herb Kohl Educational Foundation, and the countless school visits the senator has made over the years have made a lasting, positive impact on the state of Wisconsin. While his impact will endure, Wisconsin's educators will miss this humble, generous, and kind leader of leaders.
