

Dues Discounts 2024-2025

Region 7 offers 2 potential discounts:

1. For the first full year of their employment, Region 7 waives the payment of Regional dues for members who are **new to the profession*** at the time of hiring. The term “new to the profession” shall include:

- New employees who have not previously worked in their current profession in a public school district.
- New employees who previously worked in their current profession, but in a private sector setting.

*The term “new to the profession” **shall not** include:

- New employees who have worked in their current profession at another district, but are merely changing employers; or
- New employees who previously worked in their current profession in a public school district, but merely had a gap in service; or
- New employees who previously worked in their current profession in a public school district, but in another state.

2. Spousal/Domestic Partner discount: If there are two members of one household in a spousal/domestic partner relationship, and both are dues-paying members of Region 7, they each only pay ½ of their Region 7 dues.

- They must request the discount each year.
- They must let us know before January (unless they are a new sign-up) for the full discount. There will be no exceptions, as beyond that point in time, the accounting process cannot accommodate the discount.
